

## Curriculum Vitae

**Arnob Biswas**

**BSc in CSE**

Southeast University

Cell: **+8801622657707**

Email: [arnobbiswas6847@gmail.com](mailto:arnobbiswas6847@gmail.com)

### **Objectives:**

In line with my strong interest in project planning and system designing, I aspire to build a successful career in the software industry. I am highly motivated, dedicated, and eager to enhance my skills as a quick learner. Through sincerity, integrity, and consistent hard work, I aim to prove myself as an energetic and responsible professional who can contribute effectively to any organization I serve.

### **Strength:**

I am highly interested in learning new things and am a dedicated individual. I am enthusiastic and ambitious, and I enjoy working with commitment. I always strive to demonstrate a high level of competence by taking initiative to successfully accomplish any assigned task.

### **Summary:**

Solved 100+ problems on Codeforces, demonstrating strong problem-solving skills.

Experienced in project planning with a solid understanding of structured design approaches.

Possess strong ideas and conceptual knowledge in **robotics**.

Have a good understanding of **project management principles**.

Familiar with the **basic concepts of multiple programming languages**.

### **Educational Qualification:**

| Exam Title                | Concentration/Major            | Institute                             | Result                          | Pas. Year | Achievement |
|---------------------------|--------------------------------|---------------------------------------|---------------------------------|-----------|-------------|
| Bachelor of Science (BSc) | Computer Science & Engineering | Southeast University                  | CGPA:3.77<br>out of 4(Enrolled) |           |             |
| HSC                       | Science                        | Barishal Govt. Model School & College | GPA:4.5<br>out of 5             | 2022      | A           |
| SSC                       | Science                        | Barapaika High School                 | GPA:5<br>out of 5               | 2020      | A+          |

## Technical Skills:

---

|                       |                                              |
|-----------------------|----------------------------------------------|
| languages             | C/C++, Java, Python,                         |
| Web Based Development | HTML, CSS, JavaScript                        |
| Database              | MySQL Server, MongoDB                        |
| Tools                 | Codeblocks, Netbeans, VS Code, IntelliJ IDEA |

## Notable Development Works:

### 1.Blood Donation Management System

Tools & Technologies: HTML, CSS, Python, DB browser for MySQL, VS Code

Details: It is a web based application where 3 types of users are available. Admin, Donor, Blood bank are users. Donor can give blood & search blood . Blood bank only provides blood . Admin control all

### 2.Online Vehicle Parking System

Tools & Technologies: HTML, CSS, JavaScript, MongoDB, VS Code

Details: It's a web based application. Its basically to parking car/bike/others vehicles. Here two types of user, car user & admin.

### 3.Bank Management System

Tools & Technology: HTML, CSS, Node.js, VS Code, Pycharm

Details: It's a basically demo type application. How bank's function work for, understanding it I develop this project.

### 4.Cotton Company management System

Tools & Technology: HTML, CSS, JavaScript, Node.js, VS Code, MongoDB

Details: It's a web based application. To count the total earning & management the company the cotton company use it. It ensure the available product in this company

## Achivement:

---

- ☐ Secured **2nd Place** in the **Inter-Department Coding Competition**.
- ☐ Received an **Award at the Binary Nova Competition**.
- ☐ Awarded at the **IEEE Campaign 2026**.
- ☐ Achieved an **Award in the National Cisco Competition**.
- ☐ Received an **Award in a Project Competition**.
